

Worldwide General Contractor Case Study

Bovis Lend Lease, one of the world's leading project management and construction companies, required timely delivery of multiple materials to ensure project success.

PODS Storage Centers provide a consolidated staging environment, saving time and money.

PODS provided 100% on-time delivery.

■ Challenge:

- To build 192 high-end condominiums in the heart of a major city.
- To obtain and secure specialty materials with a 14 week lead time.
- Eliminate damage and shrinkage of fixtures.
- Reduce construction site storage and clutter.
- Keep subcontractors on schedule with on-demand deliveries of necessary materials.

■ Solution:

- Contractor shipped items directly to PODS' Storage Centers and packed the fixtures into PODS containers according to their install schedule.
- Items were safely secured and insured at PODS local Storage Centers.
- PODS® deliveries were coordinated locally supporting on-time scheduling requirements.
- Deliveries were made, offloaded and installed same day resulting in increased productivity.
- Ambient light in the container made for ease of use and reduced workman's comp issues.

■ Results:

- Materials arrived on-site as needed.
- Installation completed on schedule.
- Subcontractor always had necessary materials.
- PODS containers eliminated damage, stolen product and the need for on-site security.
