

## **PODS is one of the Team with the Wofford Terriers**

**A PODS-brand storage container is being provided to store equipment for the Wofford Terriers and Carolina Panthers this summer.**

SPARTANBURG, SC – August 8, 2011 - As the 2011 Wofford College football season approaches, the Terriers are hitting the practice field for the beginning of pre-season work. During the first two weeks of Wofford's Training Camp, they are sharing the campus with the NFL's Carolina Panthers and this arrangement means that the Terriers early practices take place on the "Intramural Field" – a "road practice" on your own campus if you will.

PODS graciously stepped up to support the Terriers by giving this home field away from home a convenient storage location for equipment, balls, and pads, until the team moves back into its normal quarters in mid-August. Ed McCrady, owner of PODS Upstate, remarked "This is a great opportunity for the Wofford Terriers to share the campus with the Carolina Panthers. We are pleased to be able to support sporting events in our community."

"We are grateful to PODS for helping us with a storage unit while we are sharing the campus with the Panthers. It is a great time to be a football fan in Spartanburg and our football equipment PODS brand storage container is in the middle of it all!" said assistant athletic director Lenny Mathis.

The 2011 Wofford football season opens on the road at Presbyterian on September 3 with the home opener September 24 against Samford. For more, log onto [woffordterriers.com](http://woffordterriers.com).

### **About PODS Enterprises, Inc.**

Founded in 1998, PODS currently provides moving and storage services to more than 240 million consumers in 48 U.S. states, Canada, Australia and soon the United Kingdom through its company-owned and independent franchise network. To date, the PODS network has completed more than 250,000 long-distance relocations, exceeded 1 million deliveries and has more than 140,000 PODS® containers in service.

PODS® secure containers are constructed of a steel frame and are available in three sizes: approximately 8-by-7-by-7 feet, 8-by-8-by-12 feet and 8-by-8-by-16 feet. The 12-foot and 16-foot containers have been tested to withstand winds of more than 110-mph when partially loaded. For more information or to schedule service, visit [PODS.com](http://PODS.com) or call 800-776-7637.
