

Restoration and Disaster Recovery Case Study

PODS containers improve response time when companies and individuals need it most.

Getting to sites quickly and responding safely are critical objectives.

"With PODS, we know we can count on a national vendor to assist us whenever and wherever we are asked to help customers."

**Bob McDonnell, Senior Director
ServiceMaster Clean**

"PODS helps us provide a new dimension to our services. On-site storage capacity improves our salvage time and operational efficiency."

**Bob McDonnell, Senior Director
ServiceMaster Clean**

▪ Challenge:

- ServiceMaster Clean has been in the cleaning and disaster restoration business for over 50 years and has more than 4,500 locations around the world.
- ServiceMaster Clean handles events ranging from a single-home or business fire to hurricanes, mass floods and more.
- The company is always striving to improve the speed and efficiency of its response services.

▪ Solution:

- PODS provides containers which are used for operations, then stored on-site or in one of their Storage Centers.
- PODS works closely with ServiceMaster Clean locations to get containers to locations as quickly as possible.
- PODS' extensive coverage and efficient response provides ServiceMaster Clean with PODS® containers whenever and wherever they are needed.

▪ Results:

- ServiceMaster Clean can help more customers during large-scale events, because PODS provides a large volume of containers quickly.
- Service is provided more efficiently because PODS containers are used to stage operations at the disaster site.
- Locations no longer have to worry about finding warehouse storage after an event or leasing it as a contingency. PODS Storage Centers provide clean and secure storage as needed and for as long as needed.
